### First Advantage to Preview New Review Tool at LegalTech<sup>®</sup> New York 2008

—Global RPM<sup>™</sup> includes highly anticipated document-level security—

**STERLING, Va., Jan. 14, 2008** — The Investigative and Litigation Support Services segment of First Advantage Corporation (NASDAQ: FADV), a global risk mitigation and business solutions provider, today announced that it will unveil Global RPM<sup>™</sup>, the newly renamed version of its market-leading electronic discovery review tool, at LegalTech<sup>®</sup> New York 2008.

Global RPM is a powerful, secure, Web-based tool that incorporates review management, sophisticated search, multilingual review, customizable review options and much more. It helps organizations meet the challenges of the global marketplace while saving time, controlling costs and reducing errors. Global RPM includes several new features:

- **Document-Level Security** - Customizes review access at the document level for individuals or groups. Enables offshore review of less sensitive documents at lower cost.
- **Concept Search** - Identifies documents by a specific concept rather than only key words. Ensures that all relevant documents are included in a production.
- **Message Threading** - Presents e-mail messages within the context of an e-mail thread, allowing users to better understand the meaning of each message.
- **Near Duplicate Detection** - Groups nearly identical documents together to enable collective review and version tracking.

“Global RPM incorporates many features our clients have been asking for,” said Litigation Consulting Services Executive Vice President Ray Muldaur. “It’s the result of an intense development effort, and we’re very pleased with the results. There’s major added value here, especially with the enhanced security features.”

First Advantage will preview Global RPM at LegalTech New York 2008, Feb. 5-7, 2008, at the Hilton New York hotel. All attendees are encouraged to stop by the First Advantage booth (#302 and 304) for a demonstration.

**About First Advantage**

First Advantage's Investigative and Litigation Support Services segment provides law firms, businesses, insurers and claims adjusters with litigation, corporate and insurance fraud investigations. The Litigation Consulting Services unit specializes in litigation support services, including computer forensics, electronic data discovery, data recovery services and fact-finding for litigants. Its professionals include former prosecutors, testifying computer-forensics and data-recovery experts, engineers, journalists, public-records researchers, veterans of the investigative industry and former federal law-enforcement officials. These professionals, equipped with state-of-the-art laboratories, deliver industry-leading electronic data acquisition, forensic analysis and reporting services to corporations, government agencies and law firms globally.

First Advantage Corporation (NASDAQ: FADV) provides innovative products and services that mitigate risk by helping businesses, non-profit organizations and government agencies make more informed decisions. Headquartered in St. Petersburg, Fla., the company has more than 4,700 employees in 11 countries that support over 90,000 clients globally. More information about First Advantage is available at [www.FADV.com](http://www.FADV.com).
