**FIRST ADVANTAGE LAUNCHES SAFEi9™ FOR COMPREHENSIVE I-9
PROCESSING**

***—Web-Based Enrollment Enables Employers to Easily Conduct Legal Right to Work
Form I-9 Employment Verifications on New Employees—***

ST. PETERSBURG, Fla., March 27, 2008— The Employer Services segment of First Advantage Corporation (NASDAQ: FADV) announces the launch of SAFEi9™, a comprehensive, proprietary Web based tool that allows employers to pre-enroll and execute electronic I-9 forms for new employees, efficiently responding to the federal Immigration Reform and Control Act.

The Immigration Reform and Control Act mandates that U.S. employers must verify the employment eligibility status of newly-hired employees and makes it unlawful for employers to knowingly hire or continue to employ unauthorized workers. Through a seamless electronic interface with the Department of Homeland Security (DHS), First Advantage's SAFEi9 delivers the necessary data captured during enrollment for proper verification. In addition the system is fully integrated with First Advantage's comprehensive talent acquisition solution.

"Employers often face difficulty managing the compliance process with Homeland Security and seek a user-friendly solution to properly submit critical information on their employees," said David R. Wirta, executive vice president of First Advantage's Employer Services segment. "Keeping vital records up-to-date on all employees is crucial to the overall performance of an organization and a necessary step to help ensure a safe and secure workforce."

SAFEi9 is comprised of three components:

Applicant Registration - a Web-based application that pre-populates the I-9 form, validates applicant credentials (i.e., passport, green card, etc.) and submits candidate data to DHS for Employment Eligibility Verifications (EEV)

Hiring Manager Module - a portal that managers use to verify candidate data and execute the I-9 forms

Administrative Web Site - a Web site in which company officials can monitor and view expiration dates of documentation and EEV results

-more-

Additionally, SAFEi9 services can be customized to meet specific business requirements and create a completely paperless verification process. Customized applications can include an error-detecting electronic Form I-9 solution, an e-signature and the ability to utilize high-security features and e-storage, which securely stores I-9 forms along with accompanying documents. SAFEi9 also offers a telephone registration option, enabling customers to initiate a digital submission to DHS. Customers utilizing this service may receive responses via fax machine or retrieve them online. Employers may also add 90, 60 and/or 30-day management alerts in advance of the expiration of employees' work authorization documents as well as comprehensive Form I-9 consulting, auditing and process installation services to manage the complete verification process. Finally, customers may opt to completely outsource the I-9 process to First Advantage. First Advantage operates a network of 200 certified secure third-party locations where candidates can go to have their online I-9 forms and credentials reviewed and executed.

About First Advantage

First Advantage's Employer Services segment provides a comprehensive suite of global talent acquisition solutions specifically designed to reduce the time, cost and risk associated with candidate recruiting, applicant tracking, screening, assessments and ongoing retention processes. First Advantage's talent acquisition and applicant tracking systems provide a total solution for managing the hiring process. Powering both salaried and hourly hiring, First Advantage integrates all critical hiring related services on a single platform.

First Advantage Corporation (NASDAQ: FADV) provides innovative products and services that mitigate risk by helping businesses, non-profit organizations and government agencies make more informed decisions. Headquartered in Poway, Calif., the company has 4,700 employees in 10 countries that support over 90,000 clients globally. More information about First Advantage is available at www.FADV.com.
