

ONE SOURCE

Multiple information-driven solutions.

Every organization makes daily decisions that can affect its business financially, legally or operationally. And while you can't always predict the future, you can equip yourself with reliable, quality information and insight to help you make informed, timely decisions.

Empower yourself by getting experienced insight and the *facts first* from First Advantage.

THE ADVANTAGES OF FIRST ADVANTAGE

First Advantage is a leading risk mitigation and business solutions provider with tens of thousands of clients internationally. We offer a dynamic array of innovative data-driven information solutions that are infused with insight and expertise and enhanced with progressive technologies – services that you can rely on.

We are unwavering in our commitment to deliver dependable, up-to-date information for all our products and services. We evaluate your business processes, challenges and objectives; we look at the whole picture before designing the right solutions. And, with our proprietary technology, we streamline and customize our services to maximize efficiency.

INDUSTRY LEADING SERVICES

First Advantage offers a wealth of services, products and innovative processes for many aspects of your business – all from one source.

Credit Services - Credit-granting organizations of all types and sizes rely on our products and services to help assess credit risk and streamline their operations. First Advantage is the leading provider of credit reports and associated services to organizations in the mortgage, automotive and personal loan sectors, as well as the leading source for sub-prime consumer credit information. In addition to delivering the data required for effective credit analysis, First Advantage also provides state-of-the-art automation that manages the entire credit origination, credit decisioning and contracting process for clients.

Employer Services* - Count on the most advanced services to facilitate and expedite your recruiting and hiring processes, as well as improve employee retention initiatives. First Advantage's integrated product and service offerings include recruiting solutions, hiring management systems, skills and behavioral assessments, background verifications, fingerprinting, drug-free workplace programs, physical exams, employee assistance programs, tax credits and incentives programs and other related services.

Government Services - We offer federal, state and local government best-in-class service solutions derived from our comprehensive business lines and a unique partnership network. Designed to address government's risk mitigation and other needs, our public-sector services include electronic discovery, biometric criminal history channeling, employee and contractor background verifications and occupational health programs.

ONE SOURCE.

Investigative Services* - Self-insured corporations, insurance companies, third party administrators, attorneys, investment banks and venture capital firms call on First Advantage Investigative Services to expose potential fraud, mitigate liability and protect their bottom line. Our investigations provide insightful information to help clients reduce uncertainty so they can make educated business decisions regarding risk.

Lead Generation Services - First Advantage offers an innovative and powerful suite of multi-media lead generation services that can help organizations in the mortgage, automotive, financial services and other sectors drive incremental business. In addition to a wide spectrum of generation activities that include Internet-based, credit-based and bankruptcy leads, First Advantage also provides a variety of value-added lead management services that enable organizations to maximize the return on their lead generation activities.

Litigation Consulting Services* - First Advantage provides services to the nation's largest law firms and companies to uncover the relevant information needed to make informed, intelligent decisions in the court room or the board room. We offer industry leading computer forensics, electronic discovery, data recovery, litigation intelligence and intellectual property services – providing customized solutions for our clients' unique challenges.

Multifamily Services - As the nation's largest and most innovative provider of resident screening, First Advantage products and services help property owners and managers to screen applicants, decrease resident delinquencies, increase profitability and assist with Fair Housing Act compliance. Other products help clients manage their properties and assess performance.

Supply Chain Security Services - Manufacturers, freight forwarders, cargo insurers and brokers rely on First Advantage for our groundbreaking quantitative supply chain consulting services to help mitigate their financial exposure to freight theft and optimize their supply chain risk management strategies.

Tax Consulting Services - First Advantage develops and implements strategies that reduce businesses' tax liabilities, including hiring and location-based incentive programs, training grants, site selection services and sales and use tax consulting. Our industry leading services and tax professionals will assist your company in the identification, qualification and administration of compliant programs that can generate substantial savings for your organization.

Transportation Services - Trucking companies can benefit from a platform of services that includes comprehensive shipper/broker credit reporting, driver screening and fleet management. With availability in all 50 states, First Advantage also delivers driver record and motor vehicle record data to support the underwriting and screening needs of insurance agencies, insurance carriers and other companies.
