

Attention Affiliate:

*This client's intake screening results were indicative of possible alcohol abuse. As such, please make sure to complete the AUDIT, which is on page 6 of our EAP paperwork, during the first session with this client. Score the AUDIT by adding up the responses to all 10 questions. If the score on the AUDIT is 8 or above, the client should be referred accordingly for substance abuse treatment and self-help. We will follow-up with you on this approximately 2 weeks after the first appointment.*
