

Service UPDATE

Florida Workers Compensation Changes

The Florida Office of Data Quality and Collection, Workers Compensation Division, has made changes to the information that will be reported on the workers compensation report. These changes are taking place due to Florida Statutes and Florida Administrative code. The following is an excerpt of the effected information:

“Sections 440.125 and 626.9651, Florida Statutes, and Rule Chapter 4-128, Florida Administrative Code mandate certain personal financial and/or health information is confidential and must be redacted before being released. In complying with these mandates, the Division has redacted all information relating to personal financial and health information from the records you are requesting.”

As a result of the above, you will no longer see the health section or the personal financial sections contained in the workers compensation report.
