

## New NATIONAL Criminal Search!

---

**Broaden your scope - improve your search.** HireCheck/SAMI introduces NationScan Criminal Index!

- INCREASE HIT RATE by 70% or more!
- Gain GEOGRAPHIC CLUES that your applicant may not disclose
- Immediate access to more than 100 MILLION RECORDS
- A guide to where to conduct LOCAL searches
- Over 80% coverage of the adult population
- FCRA COMPLIANT

If applicants choose not to divulge all the places they have lived and worked, you could miss some critical clues regarding their possible criminal histories. HireCheck's NationScan Criminal Index can help fill in those blanks and identify localities where more in-depth state and county criminal record searches are warranted.

Available through our web tool today, this search provides access to more than 100 million criminal records in 3,347 local jurisdictions across the United States. It complies fully with Fair Credit Reporting Act requirements and gives you a head start on more detailed local searches for a comprehensive criminal records check.

To see how quickly you can learn more about your applicants, contact your HireCheck sales or service representative today to add NationScan Criminal Index to your program.
